Campus SuperHero

SKILLS

`HTML` `CSS` `JavaScript` `ReactJS` `C++` `C` `Java` `Python` `AWS` `Linux` `RedHat` `Git` `MySQL` `BootStrap`

PROJECTS

Task Manager Application (08/2023 - 09/2023)
- Web-based "Task Manager Application" where users can perform CRUD operations. The app will allow users to organize their tasks, set due dates, mark tasks as completed, categorize tasks and perform searching and filtering based on category. It also includes a calendar view to help users visualize due dates. ↗

Food Delivery Service App (05/2023 - 06/2023)
- The website includes a gallery that features delicious food shots. This layout, full of different sized blocks, is arranged in a grid that's easy to pull off with CSS grid in React JS. ↗
